

Rodano

Rodano is an open source EDC platform for all types of clinical trials, cohorts or registries

Why Rodano?

Fully featured

All the features you would expect from a modern EDC platform.

User-friendly

User focused, with a track record of successful implementations in real-world clinical trials.

Highly customizable

Adaptable to extended user needs and workflows through configuration or plugins.

Modern, fully featured

Built on a modern stack utilizing the best design practices that make it easy to jump in and make modifications.

Interconnectable

Integrates with other systems through an HTTP API and an R SDK.

Easy to deploy

Fully dockerized for easy setup and deployment.

Free & Open-source

Rodano is 100% free and licensed under a AGPL-v3 license. All of our code is completely open source as well.

Compliant

Compliant with all the standards: 21 CFR Part 11, ICH GCP, GDPR
